AIDAN TOBAR

(419) 494 7222 | aidantobar1@gmail.com | aidantobar.com

Passionate front-end developer with school and experience in back-end and front-end languages and frameworks. Eager to learn and expand knowledge across all areas of computer science.

EDUCATION

Bachelor of Science (B.S.) in Computer Science

Expected Graduation Date May 2026

Bowling Green State University, Bowling Green, Ohio

Honors: *cum laude*

COURSE WORK

- Fundamentals and Intermediate C++ & Python
- Database Management Systems
- Data Structures
- Web Application Development
- Parallel Computing

EXPERIENCE

Web Developer Co-Op
May 2024 – August 2024 | Betco, Bowling Green, Ohio

- Redesigned and developed a web application to replace a slow and inefficient desktop tool, streamlining product management processes (create, update, delete products and associated data).
- Integrated dynamic database connections based on company selection, ensuring flexibility across multiple business units.
- Collaborated with the CIO, Senior Web Developer, and Product Management team to gather requirements and reimagine the application's functionality and UX.
- Introduced new features such as a real-time product preview page containing a 1:1 copy of the current website corresponding to the company selected, enabling users to validate product updates before publishing functionality not possible in the legacy system.
- Delivered a faster, more intuitive, and scalable tool, improving efficiency and usability for the product management team.

IT Intern
August 2025 – Present | Otsego Local Schools, Tontogany, Ohio

- Created a User Creation tool in python that acts as an all-encompassing IT toolbox running command line prompts that modify Active Directory and syncs the changes to google.
- Created an in-house File Conversion tool that can only be accessed by Otsego Users, providing a secure method of converting files. Built using Next.js and React for the front-end, python for the backend, and containerized in docker.
- Troubleshot and resolve hardware issues on Clevertouch boards, PCs, laptops, Chromebooks, and classroom AV equipment.

Service Desk Associate
December 2024 – February 2026 | Meijer, Bowling Green, Ohio

- Work with customers, listen to their problem, feedback, etc. and fix their problem as best as possible
- Make sure all employees take their breaks on time to ensure store is properly staffed
- Learn every aspect of frontend to be able to jump in to help at any station when needed
- Work with sensitive money and lottery to ensure everything is tracked properly

SKILLS
